

## Explorers - Art

During this half term Year 1 will learn about hot and cold colours. Inspired by the work of Kandinsky, we will learn to mix hot and cold colours to create our own hot and cold landscape.

### Key Knowledge

Primary colours are mixed together to make secondary colours.

The primary colours are red, yellow and blue.

Red, orange, and yellow are hot colours. They make us think of sunny, warm and cosy things.

Green, blue and purple are cold colours. They make us think of fresh, calm and chilly things.

Wassily Kandinsky was a Russian painter.
